### PRODUCT INFORMATION

Ready to race Plug and Play Vesaro simulator. The simulator includes everything needed to start racing with custom built Vesaro PC, racing software, display stand and display solution, 5.1 surround sound audio system, force feedback controls with a wireless steering rim and high quality metal 3 pedal setup, Corbeau motor sport bucket racing seat and our world class ultra strong Vesaro I modular rig architecture.

## PRODUCT DETAILS

- Professional simulator designed for private or home customers requiring high end Motorsport grade components for personal race driver training or home enthusiasts who require the best.
- The simulator comes Plug and Play factory assembled by default and includes a professional grade direct drive steering force feedback system that is designed for the ultimate in authenticity and realism and offering direct feedback of the cars steering system, road texture and general forces.
- The simulator includes our custom built PC which uses only the best cherry picked components for optimal simulation performance. All Vesaro PC's are built in house by the same technicians building the simulator ensuring that everything seamlessly ties together for a complete unified solution.
- The simulator features an authentic GT style driving position with raised pedal position and angled seat by utilizing the GT seat conversion system.
- Base on our commercial strength framework with adjustable pedals height and position using a quick release system. Adjustable seat position and adjustable height and angle.
- The simulator includes a professional Motorsport grade racing seat made by seat manufacturer Cobra.
- On-board audio provides a clean setup with high quality on board components including an Alpine low profile subwoofer located under the seat and a vibe amplifier powering the 4 satellite speakers.
- The Simulator comes with a 2 Year warranty and is backed up by our free remote login support and 7 days per week free phone and email support.

## POWER INFORMATION

- 2 x Standard 13 amp Household Plug Socket per simulator
- 110v or 220v (Vesaro will provide correct solution based upon the location of your Sim Centre)
- No special industrial or commercial power requirements are needed for this simulator.

## INTERNET REQUIREMENTS

- An internet connection is required for online multiplayer racing and to allow Vesaro to provide remote PC login support
- No internet connection is required for offline Solo racing or against the computer controlled AI
